CS4351 Ch1.4 - Introduction to Tables

- A database is just a bunch of tables
  - In a relational database, at least
- Tables hold the data

Ex. The Cat's Table

Name	breed	Age
Blue	Scottish Fold	1
Rocket	persian	3
Monty	Tabby	10
Sam	Munchkin	5

Columns (header)

  Name   breed   Age

Rows (the actual data)

Databases are made up of alot of tables
